## **DETAILED ACTION**

1. This office action is in response to the amendment filed on 04/25/05.

## Claim Rejections - 35 USC § 103

2. Claims 31-38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tsinberg (US 4,794,447) in view of Tanaka et al. (US 4,309,726) (hereafter Tanaka).

Tsinberg discloses a receiver (Fig. 1) comprising of a HDTV decoder (26) and monitor (28). Tsinberg, therefore, fails to teach "a controller operable to examine the quality of the data stream, an output unit operable to output the HDTV signal and to stop outputting the HDTV signal when the quality of the data stream is lower than a predetermined acceptable quality for a predetermined period of time".

Tanaka et al discloses PCM reproducing unit (Fig. 2, Abstract) wherein the outputting of the decoded signals is controlled by "a controller" (23) and "an output unit" (25). It would have been obvious to one of ordinary skill in the art at the time of the invention to implement Tanaka et al's quality control technique for use in Tsinberg's television receiver. Such modification Would overcome the noise problem associated with reproduced signals.

## Response to Arguments

3. Applicant's arguments filed on 04/25/05 have been fully considered but they are not persuasive.

In the Response filed on 04/25/05, page 2, applicants have argued "Tanaka provides no disclosure regarding any action to be taken of action ... record". It is

Application/Control Number: 09/669,916 Page 3

Art Unit: 2634

believed, however, Tanaka does take action by muting in response to decoding error, which is representative of signal quality.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dac V. Ha whose telephone number is 571-272-3040. The examiner can normally be reached on 5/4.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen Chin can be reached on 571-272-3056. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
